

Tahseen – Learning Support Assistant

Class of 2022

The motto 'SERVIAM' is probably what inspired me to come back to work UAI. I wanted to serve, to give back to the school who once served me in my education and my endeavours. Having this motto embedded into the school and its values reinforces St Angela's beliefs in being of service to others and building a community based on trust and cooperation; in this way, The Ursuline Academy Ilford has always felt like a community where every student feels safe and enjoys coming in to school to learn. I am also at university doing an education studies degree. Coming back as a member of staff is my way of giving back to the community and ensuring that students can also share positive, similar experiences of school to mine.
