Appendix 5 - Contacts and links	37
Appendix 6 – Allegations of abuse made against staff (including low level concerns)	38

1. INTRODUCTION

Safeguarding is the whole school's responsibility.

Safeguarding and promoting the welfare of children is defined for the purposes of this guidance as:

- protecting children from maltreatment.
- preventing impairment of children's mental and physical health or development.
- ensuring that children grow up in circumstances consistent with the provision of safe and effective care; and
- taking action to enable all children to have the best outcomes.

The Ursuline Academy Ilford have a whole school approach and culture around safeguarding and so this policy applies to all staff (including those not directly employed by this school), volunteers, and governors in this school. Our policy and procedures also apply to extended school and off-site activities. We believe:

- Our children/young people have the right to be protected from harm, abuse, neglect and exploitation.
- Our children/young people have the right to experience their optimum mental and physical health
- Every child has the right to an education and children/young people need to be safe and to feel safe in school.
- Children/young people need support that matches their individual needs, including those who may have experienced abuse.
- Our children/young people have the right to express their views, feelings and wishes and voice their own values and beliefs
- Our children/young people should be encouraged to respect each other's values and support each other.
- Our children/young people have the right to be supported to meet their emotional, social and mental health needs as well as their educational needs. Our school will ensure clear systems and processes are in place to enable identification of these needs. Including consideration of when mental health needs may become a safeguarding need.
- Our school will contribute to the prevention of abuse, risk/involvement in serious violent crime, victimisation, bullying (including homophobic, biphobic, transphobic and cyber bullying), exploitation, extreme behaviours, discriminatory views.

Rights of the Child

The Human Rights Act 1998 (HRA) sets out the fundamental rights and freedoms that everyone in the UK is entitled to and contains the Articles and protocols of the European Convention on Human Rights (ECHR) (the Convention) that are deemed to apply in the UK. Under the HRA, it is unlawful for schools and colleges to act in a way that is incompatible with the Convention. The specific convention rights applying to schools and colleges are:

- Article 3: the right to freedom from inhuman and degrading treatment (an absolute right)
 - Article 8: the right to respect for private and family life (a qualified right) includes a duty to protect individuals' physical and psychological integrity
 - Article 14: requires that all of the rights and freedoms set out in the Act must be protected and applied without discrimination,
- and
- Protocol 1, Article 2: protects the right to education

Schools and colleges have obligations under the Equality Act 2010. The Public Sector Equality Duty (PSED) is found in the Equality Act. Compliance with the PSED is a legal requirement for state-funded schools and colleges, advice on this – including on specific duties can be found here

2. RECOGNISING RISK

Some students are at increased risk of abuse. Some students face additional barriers with respect to recognising or disclosing abuse. The school is committed to recognising diversity and ensures anti-discriminatory practices. Intersectionality is the acknowledgement that everyone has their own unique experiences of discrimination and oppression, and we must consider everything and anything that can marginalise people – gender, race, class, sexual orientation, physical ability, etc. We ensure that all students have the same protection.

The school gives special consideration to students who:

- Have special educational needs (SEN) or disabilities).
- Are young carers.
- May experience discrimination due to their race, ethnicity, religion or belief, gender identification, or sexuality, or may experience Adultification bias
- Are at risk of criminal or sexual exploitation, honour-based abuse or radicalisation.
- Are asylum seekers.
- Are known to be living in difficult situations e.g., where there are issues at home, such as: substance abuse/misuse, mental health, or domestic violence or where a family member has mental health needs.
- Are at risk due to their own mental health needs.
- Are within the care system and are looked after or previously looked after.

3. ABUSE AND NEGLECT

Abuse: a form of maltreatment of a child. Somebody may abuse or neglect a child by inflicting harm or by failing to act to prevent harm. Children may be abused by others in a variety of situations and environments. They may be abused by an adult or adults or by another child or children. Abuse can take place online, or technology may be used to facilitate offline abuse.

Physical abuse: a form of abuse which may involve hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating or otherwise causing physical harm to a child. Physical harm may also be caused when a parent or carer fabricates the symptoms of, or deliberately induces, illness in a child.

Emotional abuse: the persistent emotional maltreatment of a child such as to cause severe and adverse effects on the child's emotional development. It may involve conveying to a child that they are worthless or unloved, inadequate, or valued only insofar as they meet the needs of another person. It may include deliberately silencing them or 'making fun' of what they say or how they communicate and them not being able to express views or feelings. It may feature age or developmentally inappropriate expectations and interactions being imposed on children as well as overprotection and limitation of exploration, learning or preventing the child from participating in normal social interaction. It may involve seeing or hearing the ill-treatment of another such as witnessing domestic abuse. It may involve serious bullying (including cyberbullying), causing children frequently to feel frightened or in danger, or the exploitation or corruption of children. Some level of emotional abuse is involved in all types of maltreatment of a child, although it may occur alone.

Sexual abuse: involves forcing or enticing a child or young person to take part in sexual activities, whether the child is aware of what is happening. The activities may involve physical contact, including assault by penetration (for example rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing and touching outside of clothing. They may also include non-contact activities, such as involving children in looking at, or in the production of, sexual images, watching sexual activities, encouraging children to

behave in sexually inappropriate ways, or grooming a child in preparation for abuse. Sexual abuse can take place online, and technology can be used to facilitate offline abuse. Sexual abuse is not solely perpetrated by adult males. Women can also commit acts of sexual abuse, as can other children. The sexual abuse of children by other children is a specific safeguarding issue in education.

Neglect: the persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development. Neglect may occur during pregnancy, for example, as a result of maternal substance abuse. Once a child is born, neglect may involve a parent or carer failing to: provide adequate food, clothing and shelter (including exclusion from home or abandonment); protect a child from physical and emotional harm or danger; ensure adequate supervision (including the use of inadequate caregivers); or ensure access to appropriate medical care or treatment. It may also include neglect of, or unresponsiveness to, a child's basic emotional needs.

4. ADVERSE CHILDHOOD EXPERIENCES (ACEs) USE AND NEGLECT

The ACEs acronym is used to describe a broad range of adverse childhood experiences that can be stressful or traumatic events that children and young people can be exposed to. ACEs range from experiences that directly harm a child, such as physical, verbal, or sexual abuse, and physical or emotional neglect, to those that affect the environments in which children grow up, such as parental separation, domestic violence, mental illness, alcohol abuse, drug use or imprisonment. Where children have suffered abuse and neglect, or other potentially traumatic adverse childhood experiences, this can have a lasting impact throughout childhood, adolescence and into adulthood. It is key that staff are aware of how these children's experiences, can impact on their mental health, behaviour, and education.

Parental Mental Health Problems

One in four people are estimated to experience a mental health problem. Many children will grow up with a main carer or close family member who has mental health difficulty. Parental mental health problems mean that a parent or carer has a diagnosable mental health condition. This can include depression, anxiety disorders, schizophrenia, bipolar disorder, personality disorders. More information on parental mental health

Domestic Abuse

The Domestic Abuse Act 2021 introduces the first ever statutory definition of domestic abuse and recognises the impact of domestic abuse on children, as victims in their own right, if they see, hear or experience the effects of abuse. The statutory definition of domestic abuse, based on the previous cross- government definition, ensures that different types of relationships are captured, including ex-partners and family members. The definition captures a range of different abusive behaviours, including physical, emotional and economic abuse and coercive and controlling behaviour. Domestic abuse can impact on children when they witness it at home and/or suffer it in an intimate personal relationship.

"Domestic abuse can encompass a wide range of behaviours and may be a single incident or a pattern of incidents. Children can be victims of domestic abuse. They may see, hear or experience the effects of abuse at home and/or suffer domestic abuse in their own intimate relationships (teenage relationship abuse). All of which can have a detrimental and long-term impact on their health, wellbeing, development, and ability to learn." More information can be found at: Operation Encompass, National Domestic Abuse Helpline, NSPCC, Refuge and Safelives

Parental Substance Misuse

Parents' dependent alcohol and drug use can negatively impact on children's physical and emotional wellbeing, their development and their safety. The impacts on children include: physical maltreatment and neglect, poor physical and mental health, development of health harming behaviours in later life, for example using alcohol and drugs and at an early age, which predicts more entrenched future use, poor school attendance due to inappropriate caring responsibilities, low

educational attainment, involvement in anti-social or criminal behaviour. For Public Health information on parental substance misuse [click here](#)

5. HONOUR BASED ABUSE

So-called 'honour-based' abuse (HBA) encompasses incidents or crimes which have been committed to protect or defend the honour of the family and/or the community, including female genital mutilation (FGM), forced marriage, and practices such as breast ironing. FGM: Whilst all staff should speak to the designated safeguarding lead or deputy regarding any concerns about female genital mutilation (FGM), there is a specific legal duty on teachers. Information on when and how to make a report can be found at: [Mandatory reporting of female genital mutilation procedural information](#)

6. MENTAL HEALTH

Child Mental Health

All staff should be aware that mental health problems can, in some cases, be an indicator that a child has suffered or is at risk of suffering abuse, neglect or exploitation.

Education staff are well placed to observe children day-to-day and identify those whose behaviour suggests that they may be experiencing a mental health problem or be at risk of developing one. If staff have a mental health concern about a child that is also a safeguarding concern, immediate action should be taken, and speaking to the designated safeguarding lead or a deputy. More information can be found using the following links: [YoungMinds](#), [Department for Education \(DfE\) \(2018\) Mental health and behaviour in schools](#), [UK Trauma Council](#)

Self-Harm and Suicide

Over the past two decades, rates of non-suicidal self-harm have increased across the population. Self-harm is more common among young people than other age groups, particularly young women. Self-harm has a strong relationship to suicide. While most young people who self-harm will not go on to take their own life, reducing rates of self-harm is important for suicide prevention. More information can be found [here](#).

Thoughts of suicide can affect anyone at any time. Often, people thinking about suicide will have experienced a stressful event associated with a feeling of loss. Events and experiences have different meanings and a different significance to each person – some people may feel able to cope whilst others may feel suicidal. More information can be found using on [Papyrus](#).

7. CONTEXTUALISED SAFEGUARDING

Safeguarding incidents and/or behaviours can be associated with factors outside the school. All staff should be considering the context within which such incidents and/or behaviours occur. This is known as contextual safeguarding, which simply means assessments of children should consider whether wider environmental factors are present in a child's life that are a threat to their safety and/or welfare. For more information, please [click here](#)

8. EXPLOITATION

Child Criminal Exploitation (CCE)

Some specific forms of CCE can include children being forced or manipulated into transporting drugs or money through county lines, working in cannabis factories, shoplifting or pickpocketing. They can also be forced or manipulated into committing vehicle crime or threatening/committing serious violence to others.

Children can become trapped by this type of exploitation as perpetrators can threaten victims (and their

families) with violence or entrap and coerce them into debt. They may be coerced into carrying weapons such as knives or begin to carry a knife for a sense of protection from harm from others. As children involved in criminal exploitation often commit crimes themselves, their vulnerability as victims is not always recognised by adults and professionals, (particularly older children), and they are not treated as victims despite the harm they have experienced. They may still have been criminally exploited even if the activity appears to be something they have agreed or consented to.

It is important to note that the experience of girls who are criminally exploited can be very different to that of boys, professionals should be aware that girls are at risk of criminal exploitation too. It is also important to note that both boys and girls being criminally exploited may be at higher risk of sexual exploitation.

Child Sexual Exploitation (CSE)

CSE is a form of child sexual abuse. CSE can occur over time or be a one-off occurrence and may happen without the child's immediate knowledge e.g., through others sharing videos or images of them on social media. CSE can affect any child, who has been coerced into engaging in sexual activities. This includes 16- and 17-year-olds who can legally consent to have sex. Some children may not realise they are being exploited as they believe they are in a genuine romantic relationship.

All staff should be aware of the indicators, which may signal children are at risk from, or are involved with exploitation these may include increased absence from school, a change in friendships or relationships with older individuals or groups, a significant decline in performance, signs of self-harm or a significant change in wellbeing, or signs of assault or unexplained injuries. Unexplained gifts or new possessions could also indicate that children have been approached by, or are involved with, individuals associated with criminal networks or gangs and may be at risk of criminal exploitation. More information [here](#)

Serious violence

All staff should be aware of the range of risk factors which increase the likelihood of involvement in serious violence, such as being male, having been frequently absent or permanently excluded from school, having experienced child maltreatment and having been involved in offending, such as theft or robbery. Advice for schools and colleges is provided in the [Home Office's Preventing youth violence and gang involvement](#) and its [Criminal exploitation of children and vulnerable adults: county lines guidance](#).

9. ONLINE SAFETY

The use of technology has become a significant factor of many safeguarding issues such as child sexual exploitation, child on child abuse and radicalisation. An effective approach to online safety empowers a school to protect the whole school community in their use of technology and establishes mechanisms to identify, intervene in and escalate any incident where appropriate.

The range of incidents classified within online safety is considerable, but can be categorised into four areas of risk:

Content: being exposed to illegal, inappropriate or harmful material: for example, pornography, fake news, racist or radical and extremist views.

Contact: being subjected to harmful online interaction with other users: for example, commercial advertising as well as adults posing as children or young adults; and

Conduct: personal online behaviour that increases the likelihood of, or causes, harm; for example, making, sending, and receiving explicit images, or online bullying.

Commerce: risks such as online gambling, inappropriate advertising, phishing and or financial scams. If you feel your pupils, students or staff are at risk, please report it to the [Anti-Phishing Working Group](#)

As schools increasingly work online, it is essential that children are safeguarded from potentially harmful and inappropriate online material. [UKCIS](#) provides detailed advice about sharing of nudes and semi-nude images and videos and guidance [Education for a connected world](#)

[IWF](#) provides up to date information on web safety. There is new information on, [Harmful online challenges and online hoaxes](#) - this includes advice on preparing for any online challenges and hoaxes, sharing information with parents and carers and where to get help and support.

[LGFL 'Undressed'](#) provided schools advice about how to teach young children about being tricked into getting undressed online in a fun way without scaring them or explaining the motives of sex offender. Schools are asked to pay particular attention to filtering and monitoring with schools' devices. All staff are aware of online policies and procedures and the expectations around filtering and monitoring.

Outline the schools filtering and monitoring system – including what training staff will receive, how they report concerns, discussions around how teaching material could trigger the filters.

Preventing radicalisation

Children are vulnerable to extremist ideology and radicalisation. Like protecting children from other forms of harms and abuse, protecting children from this risk should be a part of a schools or colleges safeguarding approach.

Extremism is the vocal or active opposition to our fundamental values, including democracy, the rule of law, individual liberty and the mutual respect and tolerance of different faiths and beliefs. This also includes calling for the death of members of the armed forces.

Radicalisation refers to the process by which a person comes to support terrorism and extremist ideologies associated with terrorist groups.

Terrorism is an action that endangers or causes serious violence to a person/people; causes serious damage to property; or seriously interferes or disrupts an electronic system. The use or threat must be designed to influence the government or to intimidate the public and is made for the purpose of advancing a political, religious or ideological cause. Click here for more information on [Prevent](#)

10. PROTECTED CHARACTERISTICS

Public Sector Equality Duty (PSED) for education settings. This includes a need to be conscious that pupils with protected characteristics may be more at risk of harm and integrate this into safeguarding policies and procedures. What are protected characteristics?

Age, disability, gender reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex, sexual orientation.

Schools must not unlawfully discriminate against pupils because of their protected characteristics, must consider how they are supporting pupils with protected characteristics, must take positive action, where proportionate, to deal with the disadvantages these pupils face. For example, by making reasonable adjustments for disabled children and supporting girls if there is evidence they are being disproportionately subjected to sexual violence or harassment.

Children who are lesbian, gay, bi, or trans (LGBT)

The fact that a child or a young person may be LGBT is not in itself an inherent risk factor for harm. However, children who are LGBT can be targeted by other children. In some cases, a child who is perceived by other children to be LGBT (whether they are or not) can be just as vulnerable as children who identify as LGBT. Risks can be compounded where children who are LGBT lack a trusted adult with whom they can be open. It is therefore vital that staff endeavour to reduce the additional barriers faced and provide a safe space for them to speak out or share their concerns with members of staff. LGBT inclusion is part of the statutory [Relationships Education, Relationship and Sex Education and Health Education curriculum](#) and there is a range of support available to help schools counter homophobic, biphobic and transphobic

bullying and abuse.

Racism and Safeguarding

Many children and young people who come from Black, Asian and minoritised ethnic communities experience racism, bias, stereotyping or cultural misunderstanding as they grow up. It might happen at an individual, institutional or societal level and might be displayed consciously or unconsciously. This can result in some children being more likely to come to the attention of child protection services, while other children are less likely to receive effective support.

Adultification

Adultification is a form of bias where children from Black, Asian and minoritised ethnic communities are perceived as being more 'streetwise', more 'grown up', less innocent and less vulnerable than other children. Adultification reduces professional and organisational responsibility to safeguard and protect children yet increases a *responsibilisation* of children to safeguard themselves. Adultification bias is a breach of child safeguarding legislation and guidance.

11. Child on Child Abuse

Child on Child Abuse

All staff should be aware that children can abuse other children. And that it can happen both inside and outside of school or college and online. All staff should understand, that even if there are no reports in their schools or colleges it does not mean it is not happening, it may be the case that it is just not being reported. As such it is important if staff have any concerns regarding child-on-child abuse, they should speak to their designated safeguarding lead (or deputy). Abuse that occurs online or outside of the school or college should not be downplayed and should be treated equally seriously. Child on child abuse is most likely to include, but may not be limited to:

- bullying (including cyberbullying, prejudice-based and discriminatory bullying);
- abuse in intimate personal relationships between peers.
- physical abuse such as hitting, kicking, shaking, biting, hair pulling, or otherwise causing physical harm (this may include an online element which facilitates, threatens and/or encourages physical abuse) for more information; **Department for Education (DfE) (2017) Preventing bullying.**

Child on Child Abuse - Sexual Violence, Sexual Harassment and Harmful Sexual Behaviour

Sexual violence and sexual harassment can occur between two children of any age and sex. It can also occur through a group of children sexually assaulting or sexually harassing a single child or group of children. Children who are victims of sexual violence and sexual harassment will likely find the experience stressful and distressing. This is likely to adversely affect their educational attainment. Sexual violence and sexual harassment exist on a continuum and may overlap, they can occur online and offline (both physically and verbally) and are never acceptable. It is important that all victims are taken seriously and offered appropriate support. Children with Special Educational Needs and Disabilities (SEND) are three times more likely to be abused than their peers.

The Ursuline Academy Ilford are aware of the importance of:

Making clear that sexual violence and sexual harassment is not acceptable, will never be tolerated and is not an inevitable part of growing up.

Not tolerating or dismissing sexual violence or sexual harassment as "banter", "part of growing up", "just having a laugh" or "boys being boys".

Challenging behaviour (potentially criminal in nature), such as grabbing bottoms, breasts and genitalia and flicking bras and lifting up skirts. Dismissing or tolerating such behaviours risks normalising them; and

Understanding that all the above can be driven by wider societal factors beyond the school and college, such as everyday sexist stereotypes and everyday sexist language

Importance of understanding intra familial harms and any necessary support for siblings following incidents

The Ursuline Academy Ilford are aware of sexual violence and the fact children can, and sometimes do, abuse their peers in this way. When referring to sexual violence we are referring to sexual violence offences under the **Sexual Offences Act 2003**

Sexual Harassment

Sexual harassment ‘unwanted conduct of a sexual nature’ that can occur online and offline and can include:

- sexual comments, such as: telling sexual stories, making lewd comments, making sexual remarks about clothes and appearance and calling someone sexualised names.
- sexual “jokes” or taunting; physical behaviour, such as: deliberately brushing against someone, interfering with someone’s clothes (schools and colleges should be considering when any of this crosses a line into sexual violence - it is important to talk to and consider the experience of the victim) and displaying pictures, photos or drawings of a sexual nature; and
- online sexual harassment. This may be standalone, or part of a wider pattern of sexual harassment and/or sexual violence. It may include:
 - non-consensual sharing of sexual images and videos.
 - sexualised online bullying
 - unwanted sexual comments and messages, including, on social media; and
 - sexual exploitation; coercion and threats.

[NSPCC helpline](#)

Harmful Sexual Behaviour (HSB):

is an umbrella term that describes a range of sexual behaviours. Hackett et al. (2016) define HSB as “sexual behaviours expressed by children and young people under the age of 18 years old that are developmentally inappropriate, that may be harmful towards self or others, or be abusive towards another child, young person or adult”.

This definition captures a range of behaviours, both offline and online, such as sexualised, gendered or sexist name calling, sexual image sharing without consent, unwanted sexual touching, sexual assault and rape. Sexual behaviours are seen across a continuum ranging from normal and appropriate sexual behaviours that are expected from people of a certain developmental age through to sexual behaviours that are inappropriate, problematic, abusive or violent. For more information on [HSB](#).

Procedures

Responsibilities: All Staff

School staff are particularly important as they can identify concerns early, provide help for children and prevent concerns from escalating. Staff should be aware “it could happen here” and create a safe environment where children can disclose abuse.

It is the responsibility of every member of staff to know and understand Safeguarding policies and procedures. Every school should have a designated safeguarding lead who is the first point of contact for safeguarding and child protection concerns. The designated safeguarding lead and deputy should always be available to discuss safeguarding concerns.

What staff should do if they have concerns about a child

The Designated Safeguarding Lead is: Gary Challis, ext 105, gchallis@uai.org.uk

The Deputy DSLs are: Julia Gardiner ext238 jgardiner@uai.org.uk, Fiona Stone ext 102, fstone@uai.org.uk, Caroline Wood ext 223, cwood@uai.org.uk.

The school's approach ensures the DSL or a deputy is always on site while the school is open.

Our safeguarding governor is Maureen Duncan

CONCERN ABOUT A CHILD:

Speak to Designated Safeguarding Lead (DSL) or deputy.

Record on, CPOMS electronic recording system

In case of emergency phone police on 999

If staff have any concerns about a child's welfare or a child makes a disclosure to you, it should be acted on immediately, in line with our school's policy and procedures and you must **always** seek advice from the designated safeguarding lead.

All concerns, discussion and decisions made, and the reasons for those decisions, should be recorded in writing. If in doubt about recording requirements, staff should discuss with the designated safeguarding lead or deputy.

Being ready to talk about abuse

All staff should be aware that children may not feel ready or know how to tell someone that they are being abused, exploited, or neglected, and/or they may not recognise their experiences as harmful. For example, children may feel embarrassed, humiliated, or being threatened. This could be due to their vulnerability, disability and/or sexual orientation or language barriers. This should not prevent staff from having a professional curiosity and speaking to the DSL if they have concerns about a child. It is also important that staff determine how best to build trusted relationships with children and young people which facilitate communication.

Hearing disclosures

All staff should know what to do if a child tells them s/he is being abused or neglected. Staff should know how to manage the requirement to maintain an appropriate level of confidentiality while never promising a child that they will not tell anyone about what they have disclosed.

All staff should be able to reassure victims of abuse that they are being taken seriously and will be supported. Children and young people should never be made to feel ashamed or that they are creating a problem by reporting abuse, sexual violence or sexual harassment.

If a child discloses that he or she has been abused in some way, the member of staff or volunteer should:

- Listen carefully to what they're saying - Be patient and focus on what you're being told. Try not to express your own views and feelings. If you appear shocked or as if you don't believe them, it could make them stop talking and take back what they've said.
- Give them the tools to talk - If they're struggling to talk to you, use open ended questions and simple prompts to help them share what's happening and how they're feeling.
- Let them know they've done the right thing by telling you - Reassurance can make a big impact. If they've kept the abuse a secret, it can have a big impact knowing they've shared what's happened.
- Tell them it's not their fault - Abuse is never a child's fault. It's important they hear, and know, this.
- Say you'll take them seriously - They may have kept the abuse secret because they were scared, they wouldn't be believed. Make sure they know they can trust you and you'll listen and support them.
- Don't confront the alleged abuser - Confronting the alleged abuser could make the situation worse for the child.
- Explain what you'll do next- For younger children, explain you're going to speak to someone who will be able to help. For older children, explain you'll need to report the abuse to someone who can help.

- Report what the child has told you as soon as possible- Report as soon after you've been told about the abuse so the details are fresh in your mind and action can be taken quickly. It can be helpful to take notes as soon after you've spoken to the child. Try to keep these as accurate as possible.

NSPCC Hearing Disclosures

When a child has made a disclosure, or when an individual has concerns about a child's welfare our school protocols and systems require the member of staff/volunteer to:

- make brief notes immediately after the conversation.
- make a complete and formal record as soon as possible afterwards. Use the school record of concern sheet (which should be included as an appendix to this policy) or upload on the school's digital record.
- not destroy the original notes in case they are needed by a court.
- record the dates and times of your observations.
- record the date, time, place and any noticeable non-verbal behaviour and the actual words used by the child or any discussions you were involved in.
- record explanations given by the child / adult.
- draw a diagram to indicate the position of any injuries.
- record statements and observations rather than interpretations or assumptions.
- sign and date the record

Report and submit records to the designated safeguarding lead **immediately**.

The designated safeguarding lead will maintain case files for pupils where there are concerns, with an overview chronology and a record of all communications and actions and ensure that all safeguarding records are managed appropriately. All safeguarding records are managed securely on CPOMS.

Options will then include:

- with the DSL, managing any support for the child through our own pastoral support processes.
- an early help assessment; or
- a referral for statutory services, for examples as the child might be in need, is in need or suffering or likely to suffer harm.

Staff should provide as much information as possible as part of the referral process to help social care assessments consider contexts outside the home and enable a contextual approach to harm. Staff should be mindful that early information sharing is vital for effective identification, assessment and allocation of appropriate service provision. It is important for children to receive the right help at the right time to address risks and prevent issues escalating. Research and serious case reviews have repeatedly shown the dangers of failing to take effective action. Examples of poor practice include:

- failing to act on and refer the early signs of abuse and neglect.
- poor record keeping.
- failing to listen to the views of the child.
- failing to re-assess concerns when situations do not improve.
- not sharing information.
- sharing information too slowly; and
- a lack of challenge to those who appear not to be taking appropriate action.

Staff should immediately raise any mental health concerns which are also safeguarding concerns with the Designated Safeguarding Lead (DSL) or deputy.

Early information sharing is vital for the effective identification, assessment, and allocation of appropriate service provision, whether this is when problems first emerge, or where a child is already known to local authority children's social care.

Where a child is suffering, or is likely to suffer from harm, it is important that a referral to children's social care (and if appropriate the police) is made immediately. All staff should be aware of the process for making referrals to children's social care and for statutory assessments under the Children Act 1989, especially section 17 (children in need) and section 47 (a child suffering, or likely to suffer, significant harm) that may follow a referral, along with the role that they might be expected to play in such assessments.

The process for Redbridge is:

Where a child is at risk of significant harm there may be a need to be persistent in referring concerns to the local authority. The arrangements for contacting children's services are:

Contact the local MASH (Multi-Agency Safeguarding Hub) Team of the borough the child is residing in.

If, at any point, there is a risk of immediate serious harm to a child a referral should be made to children's social care immediately using the Multi Agency Referral Form (MARF). Anybody can make a referral. If anyone other than the designated safeguarding lead (DSL) makes the referral, they should inform the DSL as soon as possible.

You may complete and submit a [LBR Multi Agency Referral Form \(MARF\) Template to CPAT.referrals@redbridge.gov.uk](mailto:CPAT.referrals@redbridge.gov.uk).

Making a MARF advice

- please ensure that when you make a referral that information relating to another child is not identifiable unless it is a relative. It breaks Data Protection to upload information on another child on one's child's record.

Check that the child or young person that you are concerned about actually resides in Redbridge – use an on-line postcode checker if you are in doubt.

Ensure you are using the correct form (MARF) – any other form will not have the correct fields on it and an out of date version may have invalid contact details.

If the child is already known to either Children's Social Care or the Early Intervention Service/Families Together Hub, contact the allocated Social Worker or Family Support Worker direct with your concerns rather than using a MARF. If you don't know the contact details for the relevant professional, call and ask the Child Protection and Assessment Team (CPAT) to look this up for you (020 8708 3885).

Don't let your primary concern get buried in too much detail, irrelevant points, hearsay or general narrative.

Do not share a child's disclosure with parents or carers if to do so would put the child at further risk.

Do not let anxiety about Data Protection stand in your way to making a child protection referral – consent is not required if you have genuine safeguarding concerns about a child's welfare.

For immediate help ring the police on 999.

CME - Children who are absent from Education

All staff should be aware that children being absent from school or college, particularly repeatedly and/or for prolonged periods, and children missing education can act as a vital warning sign of a range of safeguarding possibilities. This may include abuse and neglect such as sexual abuse or exploitation and can also be a sign of child criminal exploitation including involvement in county lines. It may indicate mental health problems, risk of substance abuse, risk of travelling to conflict zones, risk of female genital mutilation, so-called 'honour'-based abuse or risk of forced marriage. Early intervention is essential to identify the existence of any underlying safeguarding risk and to help prevent the risks of a child going missing in future. Staff should be aware of the school's or college's unauthorised absence procedures and children missing education procedures.

Work around attendance and children being absent from education should be coordinated with safeguarding interventions.

The school must notify the local authority of any pupil/student who has been absent without the school's permission for a continuous period of 5 days or more after making reasonable enquiries

The school (regardless of designation) must also notify the local authority of any pupil/student who is to be deleted from the admission register under any of the prescribed regulations outlined in the Education (Pupil Registration) (England) Regulations 2016 amendments. Guidance can be found [here](#)

Private Fostering

Many adults find themselves looking after someone else's child without realising that they may be involved in private fostering. A private fostering arrangement is one that is made privately (that is to say without the involvement of a local authority) for the care of a child under the age of 16 (under 18, if disabled) by someone other than a parent or immediate relative. If the arrangement is to last, or has lasted, for 28 days or more, it is categorised as private fostering.

The Children Act 1989 defines an immediate relative as a grandparent, brother, sister, uncle or aunt (whether of full blood or half blood or by marriage or civil partnership), or a stepparent.

People become involved in private fostering for all kinds of reasons. Examples of private fostering include:

- Children/young people who need alternative care because of parental illness
- Children/young people whose parents cannot care for them because their work or study involves long or antisocial hours
- Children/young people sent from abroad to stay with another family, usually to improve their educational opportunities
- Unaccompanied asylum seeking and refugee children/young people
- Teenagers who stay with friends (or other non-relatives) because they have fallen out with their parents
- Children/young people staying with families while attending a school away from their home area.

There is a mandatory duty on the school to inform the Local Authority of a private fostering arrangement. The Trust then has a duty to check that the child/young person is being properly cared for and that the arrangement is satisfactory.

Designated Teacher for Children Looked After (CLA):

The Designated Teacher for Children Looked After (CLA):

Gary Challis gchallis@uai.org.uk

- *Work with the Virtual School to provide the most appropriate support utilising the pupil premium plus to ensure they meet the needs identified in the child's personal education plan.*
- *Work with the Virtual School headteacher to promote the educational achievement of previously children looked after.*
- *In non-maintained schools and colleges, an appropriately trained teacher should take the lead.*

Virtual Head is Sholah Steele - Headteacher of Virtual School

Statutory guidance on [Promoting the education of children looked-after and previously children looked-after](#) contains further information on the roles and responsibilities of virtual school head. The Virtual Headteacher in LB Redbridge is Head Sholah Steele. Sholah.Steele@redbridge.gov.uk

Allegations or concerns about staff

This procedure must be used in any case in which it is alleged that a member of staff, Governor/Trustee, visiting professional or volunteer has:

- Behaved in a way that has harmed a child/young person or may have harmed a child/young person
- Possibly committed a criminal offence against or related to a child/young person; or
- Behaved in a way that indicates s/he may not be suitable to work with children/young people.
- Behaved towards a child or children in a way that indicated s/he may pose a risk of harm to children.
- The provision as set out in part 4 of KCSIE should apply to anyone working in the school who has behaved, or may have behaved, in a way that indicates they may not be suitable to work with children.

Although it is an uncomfortable thought, it needs to be acknowledged that there is the potential for staff in school to abuse pupils/students. In our school we also recognise that concerns may be apparent before an allegation is made. All staff working within our organisation must report any potential safeguarding concerns about an individual's behaviour towards children and young people immediately.

Allegations or concerns about staff, colleagues and visitors (recognising that schools hold the responsibility to fully explore concerns about supply staff) must be reported directly to the Head Teacher/Principal who will liaise with the Local Area Designated Officer Children's Trust Designated Officer (LADO) Team who will decide on any action required. (Where a Head Teacher is also the sole proprietor of an independent school it is mandatory to report to the LADO).

If the concern relates to the Head Teacher/Principal, it must be reported immediately to the Chair of the Governing Body, who will liaise with the LADO and they will decide on any action required.

If the safeguarding concern relates to the proprietor of the setting, then the concern must be made directly to the Local Area Designated Officer (LADO) Team who will decide on any action required.

We remind all staff to maintain the view that 'it could happen here' and to immediately report any concern, no matter how small, to the DSL or Headteacher.

Any staff or volunteers from outside our setting will complete an induction to ensure they are aware of the risks and know what they need to do if they are concerned.

Redbridge LADO - Helen Curtis, 020 8708 5350

lado@redbridge.gov.uk

[UAI Whistleblowing policy](#)

Operation Encompass

The Ursuline Academy Ilford have signed up to be part of Operation Encompass, which operates in all police forces across England. It helps police and schools work together to provide emotional and practical help to children. The system ensures that when the police are called to an incident of domestic abuse, where there are children in the household who have experienced the domestic incident, the police will inform the key adult (usually the designated safeguarding lead (or deputy) in school before the child or children arrive at school the following day. This ensures that the school has up to date relevant information about the child's circumstances and can enable immediate support to be put in place, according to the child's needs.

THE DESIGNATED SAFEGUARDING LEAD

The Safeguarding team in our school is:

DS Lead: Gary Challis

Deputies: Julia Gardiner, Fiona Stone, Caroline Wood

The role of the Designated Safeguarding Person was specified in the Children Act 2004 and ensures every organisation had a “named person” for safeguarding children and young people. The school can appoint deputies to support the role of the DSL. The deputy designated safeguarding lead is trained to the same standard as the lead and formal training for both will be updated at least every two years. The DSL is a member of the Senior Leadership Team. Whilst the activities of the DSL can be delegated to appropriately trained deputies, the ultimate lead responsibility for safeguarding and child protection remains with the DSL. This responsibility should not be delegated.

Key Aspects of the Designated Person role includes:

- Being the first point of contact for all safeguarding concerns
- Making sure all staff are aware how to raise safeguarding concerns and ensuring all staff understand child abuse and neglect
- Referring any child protection concerns to social care and to relevant agencies who can provide support to children and families
- Monitoring children who are the subject of plans with social care (CP/CIN/CLA)
- Maintaining accurate and secure child protection records
- Help promote educational outcomes by sharing information about the welfare, safeguarding and child protection issues.
- DSLs should work closely with senior mental health leads.
- DSLs should help promote educational outcomes by working closely with teachers about children’s welfare, safeguarding and child protection concerns.
- Ensuring safeguarding and child protection information is dealt with in a confidential manner.
- The DSL will ensure that the school is clear on parental responsibility for children on roll, and report all identified private fostering arrangements to the local authority.
- The DSL will take lead responsibility for online safety and filtering and monitoring

The broad areas of responsibility for the designated safeguarding lead are:

The full outline of the role can be found in: [Keeping Children Safe in Education \(DfE September 2023\)](#)

Manage Referrals

The designated safeguarding lead is expected to refer all cases of suspected abuse to children’s social care and to:

The police (where a crime may have been committed); Guidance on when to call the police may be found here. [When to call the police](#)

The Channel programme where there is a radicalisation concern.

The Disclosure and Barring Service where a person is dismissed or left due to risk/harm to a child.

The DSL must also understand the mandatory reporting duty for FGM.

Promoting educational outcomes for children with Social Workers

- Share information about welfare, safeguarding and child protection issues with teachers and leaders.
- Have focus on children with social workers to ensure that these students are able to achieve the best academic outcomes and support staff to identify the challenges these children may face, helpful information can be found in [Promoting the education of children with a social worker](#)

- Children with a social worker may face barriers to education because of complex circumstances.
- Effective support for children with a social worker needs education settings and local authorities to work together. All agencies can play a crucial role in establishing a culture where every child is able to make progress.

Multi-agency Working

The designated safeguarding lead is expected to:

Be prepared to supply information, as requested by the three safeguarding partners.

Work with social care, the police, health and other services to promote the welfare of children and protect them from harm. This includes providing a coordinated offer of early help, when additional needs of children are identified and contributing to inter-agency plans to provide additional support to children subject to child protection plans.

Where necessary, and in liaison with the headteacher, use local escalation policies where the actions of other agencies have not been sufficiently timely.

Share information with appropriate staff in relation to the child's looked after (CLA) status (whether they are looked after under voluntary arrangements with consent of parents or on an interim or full care order) and contact arrangements with birth parents or those with parental responsibility.

Local authorities should share that a child has a social worker with the DSL

Ensure s/he has details of the child's care arrangements and the levels of authority delegated to the carer by the authority looking after her/him. The designated safeguarding lead should have details of the child's social worker and the name of the virtual school headteacher in the authority that looks after the child.

The DSL and deputies will need to have in place clear systems and processes to identify these needs around mental health and to consider when they become a safeguarding concern

Schools and colleges, as relevant agencies, should be part of discussions with statutory safeguarding partners to agree the levels for the different types of assessment and services to be commissioned and delivered, as part of the local arrangements. Safeguarding partners publish a local **threshold** document which includes the process for the local early help assessment and the type and level of early help services to be provided, and DSLs (and their deputies) will need to familiarise themselves with this document.

Liaise with the headteacher or principal to inform him or her of issues- especially ongoing enquiries under section 47 of the Children Act 1989 and police investigations. This should include being aware of the requirement for children to have an Appropriate Adult. Further information can be found in the Statutory guidance - [PACE Code C 2019](#).

If the child's situation does not appear to be improving the DSL should press for re-consideration. Concerns should always lead to support for the child at the earliest possibility. If a disagreement arises about the way or timeliness of how concerns are being addressed, please refer to the Redbridge **SCP Escalation and Resolution Policy**

Raising Awareness

The designated safeguarding lead should:

Actively promote safeguarding throughout all aspects of the school

Ensure this policy is reviewed annually (as a minimum) and the procedures and implementation are updated and reviewed regularly, and work with the Governing Body regarding this

Take lead responsibility for safeguarding and child protection (including online safety and understanding the filtering and monitoring systems and processes in place)

Ensure each member of staff has access to, and understands, the school's child protection policy and procedures, especially new, agency and part-time staff.

Ensure this child protection policy is available publicly and that parents know referrals about suspected abuse or neglect may be made to relevant services.

Link with the safeguarding partner arrangements to make sure staff are aware of training opportunities and the latest local policies on safeguarding; and be able to analyse concerns and referrals for patterns, trends and gaps and other safeguarding data and identify and target training for staff or groups of staff accordingly. Are alert to specific needs of children in need, those with special educational needs and disabilities, young carers.

Understand and promote relevant data protection legislation and regulations, especially the Data Protection Act 2018 and the General Data Protection Regulation (GDPR).

Maintain a centralised register of all concerns and referrals, including robust and chronological records of actions taken and encourages staff to be robust around documenting and reporting concerns

Regularly monitor and review all concerns and referrals - that links are made to all contextual sources of information relevant to a child's safeguarding, for example their behaviour, attendance and learning and progress, and that all decisions are recorded and actioned and where appropriate this is communicated to relevant staff

Understand and support the school with regards to the requirements of the Prevent duty and can provide advice and support to staff on protecting children from the risk of radicalisation.

Understand the unique risks associated with online safety and be confident that they have the relevant knowledge and up to date capability required to keep children safe whilst they are online at school. Can recognise the additional risks that children with SEN and disabilities (SEND) face online, for example, from online bullying, grooming and radicalisation and are confident they have the capability to support SEND children to stay safe online.

Keep updated around emerging themes and trends by attending relevant national and local training and/or information sessions/training.

Encourage a culture of listening to children, ensuring their voices are reflected in safeguarding and taking account of their wishes and feelings.

Storing data

Safeguarding records will be stored securely in a central place separate from academic records. Individual files will be kept for each pupil/student: the school will not keep family files. Files will be kept for at least the period during which the pupil/student is attending the school, and beyond that in line with current data legislation and guidance. When children leave the school, the designated safeguarding lead should:

Ensure their child protection file is transferred to the new school or college as soon as possible. This should be transferred separately from the main pupil file, ensuring secure transit, and confirmation of receipt should be obtained. Receiving schools and colleges should ensure key staff, such as designated safeguarding leads and SENDCos, are aware as required.

Consider if it would be appropriate to share any information with the new school or college in advance of the child leaving. For example, information that would allow the new school or college to continue supporting victims of abuse and have that support in place for when the child arrives.

If a pupil/student moves from our school, child protection and safeguarding records will be forwarded on to the DSL at the new school, with due regard to their confidential nature and in line with current government guidance on the transfer of such records. Direct contact between the two schools may be necessary, especially on transfer from primary to secondary schools.

Sixth form and colleges are aware of students previous safeguarding needs at the earliest opportunity.

Availability

During term time the designated safeguarding lead or deputy should always be available (during school hours), for staff to discuss any safeguarding concerns. Whilst the designated safeguarding lead or deputy would be expected to be available in person, sometimes availability by phone or Skype, for staff to discuss any safeguarding concerns, will be acceptable. School leaders will ensure appropriate cover arrangements for any out of hours/out of term activities.

RESPONSIBILITIES: THE HEADTEACHER

The headteacher will ensure that the policies and procedures adopted by the governing body are fully implemented and that sufficient resources and time are allocated to enable staff members to discharge their safeguarding responsibilities. The headteacher or principal's role to ensure that staff understand and follow policies and procedures agreed by the governing body or proprietor

On behalf of the governing body, the headteacher will ensure that all staff read at least Part one, Part five and Annex A of Keeping Children Safe in Education (2023) The headteacher will ensure that mechanisms are in place to assist staff to understand and carry out their roles and responsibilities, as set out in part one of the above guidance.

The headteacher and designated safeguarding lead will prepare the safeguarding annual report to the governing body to enable governors to review the effectiveness of child protection and safeguarding arrangements and, in turn, to influence the annual review of the policy. This enables the governing body to monitor compliance and to identify areas for improvement.

This will include periodic audits of child protection files and records by the designated safeguarding lead, the headteacher and external auditors. The views of children, parents and carers and staff members will be sought on child protection and safeguarding arrangements through surveys, questionnaires and other means. The headteacher will quality assure the effectiveness of the designated safeguarding lead in all aspects of their role (as defined in this policy).

Early Years

The headteacher will also ensure that provision for the early years meets the specific safeguarding requirements described in the Statutory Framework for the Early Years Foundation Stage. Ofsted inspectors will always report on whether arrangements for safeguarding children and learners are effective. In our school in relation to self-evaluation of safeguarding we will take account of Inspecting Safeguarding in Early Years, Education and Skills Settings and the School Inspection Handbook.

In order that all members of staff have the knowledge and skills required to fulfil their duties, school leaders will:

- publish the names and contact details for the designated safeguarding lead/s and any deputy designated safeguarding leads.
- as part of the induction programme for all new members of staff, including newly qualified teachers, provide safeguarding and child protection training. Staff new to the school, like their established colleagues, will be expected to read and understand [Keeping Children Safe in Education \(2023\) Part One](#) and be familiar with our safeguarding and child protection policy, the behaviour policy, the staff code of conduct and be familiar with the safeguarding response to children absent from Education. Temporary staff will be made aware of the safeguarding policies and procedures and the school will ensure that staff provided by other agencies have received the required child protection and safeguarding training, commensurate with their roles, before being deployed.
- provide all staff with appropriate safeguarding and child protection training which is updated regularly. In addition, all staff will receive safeguarding and child protection updates as required, and at least annually, to provide them with relevant skills and knowledge to safeguard children effectively. School leaders will keep a record of staff induction and training
- If staff have safeguarding concerns, or an allegation is made about another member of staff (including supply staff and volunteers) posing a risk of harm to children, then: this should be referred to the headteacher or principal
- Where a head teacher is also the sole proprietor of an independent school it is now mandatory to report to the LADO.

Relationships Education, Relationship & Sex Education (RSE) and Health Education

Relationship Education (for all primary pupils), RSE (for all secondary pupils) and Health Education (for all state school pupils) will be compulsory from September 2020.

Safeguarding issues, including online safety, child on child abuse, sexual harassment and extra familial harm (multiple harms) will be addressed through the curriculum in an age-appropriate way

Statutory guidance: relationships education relationships and sex education (RSE) and health education.

Colleges may cover relevant issues through tutorials. The following resources may help schools and colleges:

- [DfE advice for schools: teaching online safety in schools](#)
- [UK Council for Internet Safety \(UKCIS\) guidance: Education for a connected world](#)
- [National Crime Agency's CEOP education programme: Thinkuknow](#)
- [Public Health England: Every Mind Matters](#)
- [Introduce a clear policy on the use of mobile and smart technology. This policy should cover how schools and colleges will manage incidents of sexual harassment between children and young people via mobile or smart technology.](#)

RESPONSIBILITIES: THE GOVERNING BODY

Governing bodies and proprietors should ensure they facilitate a whole school or college approach to safeguarding. This means ensuring safeguarding and child protection are at the forefront and underpin all relevant aspects of process and policy development.

The Nominated Governor is responsible for liaising with the Head Teacher/Principal and DSL over all matters regarding safeguarding and child protection issues. The governor role is strategic rather than operational – they will **not** be involved in concerns about individual pupils/students.

- Our nominated governor for safeguarding and child protection is: Maureen Duncan

This governor will receive safeguarding training relevant to the governance role and this will be updated every two years. The Nominated Governor will liaise with the Head Teacher/Principal and the DSL to produce a report at least annually for governors and ensure the annual Section 175 safeguarding self- assessment is completed and submitted on time.

Governing bodies and proprietors should be aware of their obligations under the Human Rights Act 1998, the Equality Act 2010, (including the Public Sector Equality Duty), and their local multi-agency safeguarding arrangements.

Ultimately, all systems, processes and policies should operate with the best interests of the child at their heart. Where there is a safeguarding concern, the governing body and school leaders should ensure the child's wishes and feelings are considered when determining what action to take and what services to provide. Systems should be in place for children to express their views and give feedback.

Governing bodies and proprietors should ensure that there are appropriate policies and procedures in place for appropriate action to be taken in a timely manner to safeguard and promote children's welfare: For more information on policies please go to [Keeping Children Safe in Education \(2023\)](#)

Policies

Ensuring that an effective safeguarding and child protection policy is in place, which describes procedures in accordance with government guidance and refers to multi-agency safeguarding arrangements and is available publicly via the school website.

The governing body will annually review all policies/procedures that relate to safeguarding and child protection.

Ensuring that there is a staff behaviour policy or code of conduct that includes, amongst other expectations, acceptable use of technologies, staff/pupil relationships and communications including staff use of social media.

Putting in place appropriate safeguarding responses to children who become absent from education, particularly on repeat occasions, to help identify the risk of abuse and neglect, including sexual abuse or exploitation, and to help prevent the risks of their going missing in future.

Where reasonably possible, the school will hold more than one emergency contact number for each pupil so that the school has additional options to contact a responsible adult when a child absent from education is also identified as a welfare and/or safeguarding concern.

Where a school or college has charitable status, Charity Commission guidance on charity and trustee duties to safeguard children is available at [GOV.UK](#).

Children Looked After and Previously Children Looked After (CLA)

The governing body must appoint a **designated teacher** and should work with local authorities to promote the educational achievement of registered pupils who are looked after. On commencement of sections 4 to 6 of the Children and Social Work Act 2017, the designated teacher will also have responsibility for promoting the educational achievement of children who have left care through adoption, special guardianship or child arrangement orders or who were adopted from state care outside England and Wales.

The Governing body must ensure that the designated teacher has appropriate training and the relevant qualifications and experience. Statutory guidance contains further information on [The Role and Responsibilities of the Designated Teacher](#).

Children with Special Educational Needs and Disabilities

Children with special educational needs and disabilities (SEND) can face additional safeguarding challenges. The governing body should ensure this child protection policy reflects the fact that additional barriers can exist when recognising abuse and neglect in this group of children. These can include:

- assumptions that indicators of possible abuse such as behaviour, mood and injury relate to the child's disability without further exploration.
- being more prone to peer group isolation than other children.
- the potential for children with SEN and disabilities being disproportionately impacted by behaviours such as bullying, without outwardly showing any signs; and
- communication barriers and difficulties in overcoming these barriers.

To address these additional challenges, schools should consider extra pastoral support for children with SEND.

The Use of Reasonable Force in Schools

There are circumstances when it is appropriate for staff in school to use reasonable force to safeguard children and young people. The term 'reasonable force' covers the broad range of actions used by staff that involves a degree of physical contact to control or restrain *<children/young people>. This can range from guiding a *<child/young person> to safety by the arm, to more extreme circumstances such as breaking up a fight or where a *<child/young person> needs to be restrained to prevent violence or injury.

'Reasonable' in these circumstances means 'using no more force than is needed'. The use of force may involve either passive physical contact, such as standing between pupils or blocking a pupil's path, or active physical contact such as leading a pupil by the arm out of the classroom.

Government advice for 'Use of Reasonable Force in Schools' is available here. The governing body and school leaders have a separate policy which has taken account of advice for schools in [Use of Reasonable Force in Schools](#).

The governing body takes account of [Searching Screening and Confiscation Advice](#) for schools and the UK Council for Child Internet Safety (UKCCIS) Education Group and [Advice on Sharing nude images](#)

The governing body will expect all staff to have read and understand [Part five of Keeping Children Safe in Education: Child on Child Sexual Violence and Sexual Harassment](#).

Mental Health

The DfE has published advice and guidance on [Preventing and Tackling Bullying, Mental Health and Behaviour in Schools](#) (which may also be useful for colleges). The Mental Health and Behaviour in Schools guidance sets out how schools and colleges can help prevent mental health problems by promoting resilience as part of an integrated, whole school/college approach to social and emotional wellbeing, which is tailored to the needs of their pupils.

Multi-agency Working

Ensuring that the school contributes to multi-agency working in line with statutory guidance [Working Together to Safeguard Children \(July 2018\)](#).

It is especially important that schools and colleges understand their role in the three safeguarding partner arrangements. Governing bodies, proprietors and their senior leadership teams, especially their designated safeguarding leads, should make themselves aware of and follow their local arrangements.

The governing body should understand the local criteria for action and the local protocol for assessment and ensure these are reflected in the school's own policies and procedures.

The governing body should also be prepared to supply information as requested by the three safeguarding partners. The school should work with social care, the police, health services and other services to promote the welfare of children and protect them from harm. This includes providing a coordinated offer of early help when additional needs of children are identified and contributing to inter-agency plans to provide additional support to children subject to child protection plans.

Filtering and Monitoring

Whilst considering their responsibility to safeguard and promote the welfare of children and provide them with a safe environment in which to learn, the school are committed to doing all that they reasonably can to limit children's exposure to the above risks from the IT system.

The Governing body ensure that all staff undergo safeguarding and child protection training (including online safety which, amongst other things, includes an understanding of the expectations, applicable roles and responsibilities in relation to filtering and monitoring) at induction and is updated regularly.

The school have ensured that appropriate filtering and monitoring systems are in place, they should be careful that "over blocking" does not lead to unreasonable restrictions as to what children can be taught regarding online teaching and safeguarding.

The systems effectiveness is regularly reviewed and the leadership team and relevant staff have an awareness and understanding of the provisions in place and manage them effectively and know how to escalate concerns when identified.

the Department for Education has published filtering and monitoring [standards](#) which set out that schools and colleges should:

- identify and assign roles and responsibilities to manage filtering and monitoring systems. The DSL should take lead responsibility for the online safety and understanding the filtering and monitoring systems and processes in place.
- review filtering and monitoring provision at least annually.
- block harmful and inappropriate content without unreasonably impacting teaching and learning.
- have effective monitoring strategies in place that meet their safeguarding needs

The standards should regularly be reviewed and discussed with IT staff and service providers what more needs to be done to support schools and colleges in meeting this standard.

Additional guidance on filtering and monitoring can be found at: [UK Safer Internet Centre: South West Grid for Learning](#) have created a tool to check whether a school or college's filtering provider is signed up to relevant lists (CSA content, Sexual Content, Terrorist content, Your Internet Connection Blocks Child Abuse & Terrorist Content).

Information Sharing

Information sharing is vital in identifying and tackling all forms of abuse and neglect. The governing body should ensure that principles and arrangements for sharing information within school and with the three safeguarding partners, other agencies and practitioners are in place.

[Working Together to Safeguard Children July 2018](#) (Chapter 1 - which includes a myth-busting guide to information sharing);

[Information sharing: Advice for Practitioners Providing Safeguarding Services to Children, Young people, Parents and Carers](#); and

[The information Commissioner's Office \(ICO\)](#) which includes ICO GDPR FAQs and guidance from the department. This is a general link to the website – [Sharing data to safeguard children FAQs | ICO](#)

Training

- Governing bodies and proprietors should ensure that all governors and trustees receive appropriate safeguarding and child protection (including online) training at induction. This training should equip them with the knowledge to provide strategic challenge to test and assure themselves that the safeguarding policies and procedures in place in schools and colleges are effective and support the delivery of a robust whole school approach to safeguarding. Their training should be regularly updated.

Ensuring that all new staff (new to the role and/or new to the school including agency staff and interim appointments) undergo safeguarding and child protection training (including online safety) at induction.

In addition to this annual training, all staff will receive regular safeguarding and child protection training and updates (for example, via email, e-bulletins, staff meetings) throughout the school year, to provide them with relevant skills and knowledge to safeguard children effectively.

Ensuring all staff read at least Part one, Part five and Annex A of Keeping Children Safe in Education (2023)

Online Safety

An effective approach to online safety empowers a school to protect the whole school community in their use of technology and establishes mechanisms to identify, intervene in and escalate any incident where appropriate.

Governing bodies and proprietors should ensure that staff receive regular updated safeguarding training, including online safety and ensure children are taught about safeguarding, including online safety. Safeguarding training for staff, including online safety training, is integrated, aligned, and considered as part of the whole school or college safeguarding approach and wider staff training and curriculum planning. In devising the approach to online safety and teaching online safety, the governing body and school leaders have taken into account Teaching Online Safety in Schools 2019

The school's online policy includes guidance and rules regarding the use of pupil/staff mobile technology and access to the internet via 3G, 4G and 5G on our premises. This policy should cover how schools and colleges will manage incidents of sexual harassment between children and young people via mobile or smart technology.

Technology, and risks and harms related to it evolve and changes rapidly. Schools and colleges should consider carrying out an annual review of their approach to online safety, supported by an annual risk assessment that considers and reflects the risks their children face. A free online safety self-review tool for schools can be found via the 360 safe website.

UKCIS has published Online safety in schools and colleges: Questions from the governing board.

The questions can be used to gain a basic understanding of the current approach to keeping children safe online; learn how to improve this approach where appropriate; and find out about tools which can be used to improve the approach. It has also published an Online Safety Audit Tool which helps mentors of trainee teachers and newly qualified teachers induct mentees and provide ongoing support, development and monitoring.

Remote Learning

Where children are being asked to learn online at home the Department has provided advice to support schools and colleges do so safely: safeguarding in schools colleges and other providers and safeguarding and remote education. The NSPCC and PSHE Association also provide helpful advice:

- NSPCC Learning - Undertaking remote teaching safely during school closures

Schools and colleges are likely to be in regular contact with parents and carers. Those communications

should be used to reinforce the importance of children being safe online and parents and carers are likely to find it helpful to understand what systems schools and colleges use to filter and monitor online use. It will be especially important for parents and carers to be aware of what their children are being asked to do online, including the sites they will be asked to access and be clear who from the school or college (if anyone) their child is going to be interacting with online

Opportunities to Teach Safeguarding

The governing body should ensure that children are taught about safeguarding, including online safety, as part of providing a broad and balanced curriculum.

Whilst it is essential that appropriate filters and monitoring systems are in place, the governing body should be careful that “over blocking” does not lead to unreasonable restrictions as to what children can be taught with regard to online teaching and safeguarding.

Safer Recruitment

The governing body should prevent people who pose a risk of harm from working with children:

- By adhering to statutory responsibilities to check staff who work with children, taking proportionate decisions on whether to ask for any checks beyond what is required and ensuring volunteers are appropriately supervised. The governing body has recruitment and selection policies and procedures in place.
- In accordance with [The School Staffing \(England\) Regulations 2009](#), the governing body will ensure that at least one of the persons who conducts an interview has completed safer recruitment training. The training should cover, as a minimum, the content of this guidance.
- Governing bodies and proprietors should ensure there are procedures in place to manage safeguarding concerns, or allegations against staff (including supply staff and volunteers) that might indicate they would pose a risk of harm to children.

The governing body regards it as vital that it has created a culture of safe recruitment and, as part of that, has adopted recruitment procedures that help deter, reject or identify people who might abuse children. The governing body has taken full account of the statutory guidance in Part three of [Keeping Children Safe in Education: Safer recruitment](#)

Statutory guidance – regulated activity (children) – supervision of activity with children which is regulated activity when unsupervised and: [Disclosure and Barring Service checks](#)

- The school operates “Safer Recruitment” procedures and ensures that appropriate checks are carried out on all new staff, governors and relevant volunteers, DBS for volunteers are free [Disclosure and Barring Service checks](#)
 - The Head Teacher/Principal and all other staff who work with children/young people undertake safeguarding training on an annual basis with additional updates as necessary within a two-year framework and a training record maintained
 - Temporary staff and volunteers are made aware of the school’s arrangements for safeguarding & child protection and their responsibilities
 - The governing body has a written policy and procedures for dealing with allegations of abuse against members of staff, visitors, volunteers or governors
 - The school remedies any deficiencies or weaknesses brought to its attention without delay
- A member of the governing body (usually the Chair) is nominated to be responsible for liaising with the LADO in the event of allegations of abuse being made against the Head Teacher/Principal.

The school should follow part 3 of 'Keeping children safe in education' (KCSIE) and pay full regard to 'Safer Recruitment' requirements including but not limited to:

- verifying candidates' identity and academic or vocational qualifications
- obtaining professional and character references
- checking previous employment history and ensuring that a candidate has the health and physical capacity for the job,
- UK Right to Work
- clear enhanced DBS check
- any further checks as appropriate to gain all the relevant information to enable checks on suitability to work with children.
- As part of the shortlisting process schools and colleges should consider carrying out an online search as part of their due diligence on the shortlisted candidates. This may help identify any incidents or issues that have happened, and are publicly available online, which the school or college might want to explore with the applicant at interview. Shortlisted candidates should be informed that online searches may be done as part of due diligence checks.

Evidence of these checks must be recorded on the Single Central Record.

All recruitment materials will include reference to the school's commitment to safeguarding and promoting the wellbeing of pupils.

[Click here for more information on identity checks](#)

All London Borough of Redbridge schools must ensure that staff DBS certificates are renewed ideally at 3 years but no longer than 5 years where an update service is not being applied. For more information please contact Redbridge Education HR service - SchoolsHR@redbridge.gov.uk

Concerns About a Staff Member Who May Pose a Risk of Harm to Children

The Governing Body will ensure that school leaders understand the correct procedures regarding reporting safeguarding concerns or allegations about another member of staff (including a volunteer) posing a risk of harm to children. The Chair of Governors should ensure that these procedures are adhered to:

Concerns or allegations should be referred to the headteacher.

Where there are concerns/allegations about the headteacher, these should be reported to the Chair of Governors

The headteacher or Chair of Governors, as appropriate, should **discuss the allegation immediately with the Local Authority Designated Officer (LADO)**. The purpose of this initial discussion is for the LADO and the case manager in school to consider the nature, content and context of the allegation and agree a course of action. The case manager should not inform any member of staff of an allegation nor conduct any sort of investigation until s/he has first had the discussion with the LADO.

Redbridge Local Authority Designated Officer

0208 708 5350 lado@redbridge.gov.uk

LADO referral form can be downloaded from the [RSCP website](#)

The governing body and school leaders will ensure that they have read and understand [Part four of Keeping Children Safe in Education September 2023: Allegations of abuse made against teachers and other staff.](#)

This guidance explains the duties of an employer and employee in respect of all cases in which it is alleged that a teacher or member of staff (including volunteers) in school has:

- behaved in a way that has harmed a child or may have harmed a child.
- possibly committed a criminal offence against or related to a child; or
- behaved towards a child or children in a way that indicates he or she may pose a risk of harm to children.

Where an individual has behaved or may have behaved in a way that indicates they may not be suitable to work with children. The reason is because of transferrable risk.

If an allegation is determined to be unsubstantiated or malicious, the designated officer(s) should refer the matter to the children's social care services to determine whether the child concerned needs services or may have been abused by someone else. If an allegation is shown to be deliberately invented or malicious, the headteacher, principal or proprietor should consider whether any disciplinary action is appropriate against the pupil or student who made it; or whether the police should be asked to consider if action might be appropriate against the person responsible, even if he or she were not a pupil or student.

Low level concerns

Schools and colleges should ensure that their low-level concerns policy contains a procedure for sharing confidentially such concerns which is clear, easy to understand and implement. Whether all low-level concerns are shared initially with the DSL (or a nominated person (such as a values guardian/safeguarding champion)), or with the headteacher/principal is a matter for the school or college to decide. If the former, then the DSL should inform the headteacher/principal of all the low-level concerns and in a timely fashion according to the nature of each low-level concern. The headteacher/principal should be the ultimate decision maker in respect of all low-level concerns, although it is recognised that depending on the nature of some low-level concerns and/or the role of the DSL in some schools/colleges, the headteacher/principal may wish to consult with the DSL and take a more collaborative decision-making approach. Low-level concerns which are shared about supply staff and contractors should be notified to their employers, so that any potential patterns of inappropriate behaviour can be identified. If schools and colleges are in any doubt as to whether the information which has been shared about a member of staff as a low-level concern in fact meets the harm threshold, they should consult with their LADO

Alternative provision

The cohort of pupils in Alternative Provision often have complex needs, it is important that governing bodies and proprietors of these settings are aware of the additional risk of harm that their pupils may be vulnerable to.

The Department has issued two pieces of statutory guidance to which commissioners of Alternative Provision should have regard:

- [Alternative provision - DfE Statutory Guidance](#); and
- [Education for children with health needs who cannot attend school - DfE Statutory Guidance](#)

Use of school or college premises for non-school/college activities

Where governing bodies or proprietors hire or rent out school or college facilities/premises to organisations or individuals (for example to community groups, sports associations, and service providers to run community or extra-curricular activities) they should ensure that appropriate arrangements are in place to keep children safe. Ensuring that the organisation have a safeguarding policy and clear procedures are in place for safeguarding children and vulnerable adults.

Homestay during exchange visits

Schools often plan for children to take part in exchange visits, either to other parts of the UK or abroad. Exchanges can benefit learning across a range of subjects. Foreign visits can enrich the languages curriculum and provide exciting opportunities for pupils to develop their confidence and expertise in the use of other languages. Schools have a duty to safeguard and promote children's welfare. This extends to considering their safety and how best to minimise risk of harm to those children during any exchange visit arranged by the school and when organising for the care and accommodation of a child with a host family (known as homestays) as part of the exchange

[The governing body has taken account of Annex D of Keeping Children Safe in Education: Host families – homestay during exchange visits](#)

CONFIDENTIALITY, CONSENT AND INFORMATION SHARING

Information sharing is vital in identifying and tackling all forms of abuse and neglect.

As part of meeting a child's needs, the governing body recognises the importance of information sharing between practitioners and local agencies. This should include ensuring arrangements are in place that set out clearly the process and principles for sharing information within the school and with the three safeguarding partners, other organisations, agencies and practitioners as required.

"Data protection: toolkit for schools", supports schools with data protection activity, including compliance with relevant legislation.

Schools should ensure that policies, training and practice give staff the confidence to know when, how and to whom they can share sensitive information when dealing with a safeguarding concern - making reference to relevant guidance such as the new toolkit and the July 2018 guidance – Information Sharing: Advice for Practitioners Providing Safeguarding Services to Children, Young People, Parents and Carers. The training should also cover how to record that information in a neutral and professional manner, focusing on what is necessary for the safeguarding purpose.

School staff should be proactive in sharing information with the designated safeguarding lead as early as possible to help identify, assess and respond to risks or concerns about the safety and welfare of children, whether this is when problems are first emerging, or where a child is already known to local authority children's social care.

The governing body is aware that, among other obligations, the Data Protection Act 2018 and the GDPR place duties on organisations and individuals to process personal information fairly and lawfully and to keep the information they hold safe and secure.

The Data Protection Act 2018 and GDPR do not prevent, or limit, the sharing of information for the purposes of keeping children safe. Fears about sharing information cannot be allowed to stand in the way of the need to promote the welfare and protect the safety of children. Please contact the schools designated Data Protection Lead if there are any concerns around data sharing.

The governing body should ensure relevant staff have due regard to the data protection principles, which allow them to share personal information, as provided for in the Data Protection Act 2018, and the GDPR. Relevant staff should be confident of the processing conditions under the Data Protection Act 2018 and the GDPR which allow them to store and share information for safeguarding purposes, including information, which is sensitive and personal, and should be treated as 'special category personal data.'

The governing body should ensure that staff who need to share 'special category personal data' are aware that the Data Protection Act 2018 contains 'safeguarding of children and individuals at risk' as a processing condition that allows practitioners to share information. This includes allowing practitioners to share information without consent if it is not possible to gain consent, if it cannot be reasonably expected that a practitioner gains consent, or if to gain consent would place a child at risk.

Where children leave the school, the designated safeguarding lead should ensure their child protection file is transferred to the new school or college as soon as possible, ensuring secure transit, and confirmation of receipt should be obtained. For schools, this will be transferred separately from the main pupil file. Receiving schools and colleges should ensure key staff such as designated safeguarding leads and SENDCos or the named person with oversight for SEND in a college, are aware as required.

In addition to the child protection file, the designated safeguarding lead should also consider if it would be appropriate to share any information with the new school or college in advance of a child leaving. For example, information that would allow the new school or college to continue supporting victims of abuse and have that support in place for when the child arrives. This sharing should be conducted securely and only with relevant safeguarding staff at the forwarding school.

All staff members must be aware that they cannot promise a child to keep secrets which might compromise the child's safety or well-being.

Information sharing: Advice for practitioners providing safeguarding services to children, young people, parents and carers supports staff who must make decisions about sharing information. This advice includes the seven golden rules for sharing information and considerations regarding the Data Protection Act 2018 and GDPR. If in any doubt about sharing information, staff should speak to the designated safeguarding lead or deputy. Fears about sharing information must not be allowed to stand in the way of the need to promote the welfare, and protect the safety, of children.

In a case of female genital mutilation there is a mandatory requirement for the teacher to report directly to the police.

The seven golden rules to sharing information

1. Remember that the General Data Protection Regulation (GDPR), Data Protection Act 2018 and human rights law are not barriers to justified information sharing but provide a framework to ensure that personal information about individuals is shared appropriately.
2. Be open and honest with the individual (and/or their family where appropriate) from the outset about why, what, how and with whom information will, or could be shared, and seek their agreement, unless it is unsafe or inappropriate to do so.
3. Seek advice from other practitioners, or your data protection lead, if you are in any doubt about sharing the information concerned, without disclosing the identity of the individual where possible.
4. Where possible, share information with consent, and where possible, respect the wishes of those who do not consent to having their information shared. Under the GDPR and Data Protection Act 2018 you may share information without consent if, in your judgement, there is a lawful basis to do so, such as where safety may be at risk. You will need to base your judgement on the facts of the case. When you are sharing or requesting personal information from someone be clear of the basis upon which you are doing so. Where you do not have consent be mindful that an individual might not expect information to be shared.
5. Consider safety and well-being: base your information sharing decisions on considerations of the safety and well-being of the individual and others who may be affected by their actions.
6. Necessary, proportionate, relevant, adequate, accurate, timely and secure: ensure that the information you share is necessary for the purpose for which you are sharing it, is shared only with

those individuals who need to have it, is accurate and up to-date, is shared in a timely fashion, and is shared securely. Seek advice on digital secure sharing from your IT professional.

7. Keep a record of your decision and the reasons for it – whether it is to share information or not. If you decide to share, then record what you have shared, with whom and for what purpose. This record should be kept for at least three years.

COMMUNICATION WITH PARENTS

- Make parents aware of the school's statutory role in safeguarding and promoting the welfare of students, including the duty to refer students on, where necessary, by making all policies available on the website and on request.
- Work with parents to support the needs of their child.
- Consider the safety of the student and, should a concern arise, the Designated Safeguarding Lead (DSL) has the responsibility to seek advice prior to contacting parents.
- Aim to help parents understand that the school has a responsibility for the welfare of all students and has a duty to refer cases to the Local Authority in the interests of the student as appropriate.
- Ensure a robust complaints system is in place to deal with issues raised by parents and carers.
- Provide advice and signpost parents and carers to other services where students need extra support.

School leaders will:

Ensure the safeguarding and child protection policy is published on the school website and on display in the entrance foyer.

Ensure that pupils, parents and visitors to the school are clearly and visually informed of the name of the designated safeguarding lead and deputy.

Ensure that visitors are aware of their safeguarding duties while in school and how to report safeguarding concerns.

School leaders will ensure that the parents understand the responsibilities placed on the school and staff for safeguarding children.

When staff have a concern about an individual child that requires a referral to children's social care, parents should be informed prior to referral, unless it is considered to do so might place the child at increased risk of significant harm by:

The behavioural response it prompts e.g. a child being subjected to abuse, maltreatment or threats/forced to remain silent if alleged abuses informed.

Leading to an unreasonable delay.

Leading to the loss of evidential material.

Placing a member of staff from any agency at risk.

SITE SECURITY

All staff members have a responsibility to ensure the buildings and grounds are secure and for reporting concerns that may come to light.

The identity of all visitors and volunteers coming into school is checked. Visitors are expected to sign in and out in the office visitors' log and to display a visitor's badge while on the school site. Any individual who is not known or identifiable will be challenged for clarification and reassurance.

The school will not accept the behaviour of any individual, parent or anyone else, that threatens the school security or leads others, child or adult, to feel unsafe. Such behaviour will be treated as a serious concern and may result in a decision to refuse the person access to the school site.

If the school is renting the premises to another organisation the school should ensure the provider concerned has appropriate safeguarding and child protection policies and procedures in place (including inspecting these as needed); and ensure that there are arrangements in place for the provider to liaise with the school or college on these matters where appropriate. The guidance on [Keeping children safe in out-of-school](#) settings details the safeguarding arrangements that schools and colleges should expect these providers to have in place.

APPENDIX 1: STATUTORY FRAMEWORK & GUIDANCE

In order to safeguard and promote the welfare of children, this policy has been developed in accordance with the following legislation and guidance:

[The Children Act 1989](#)

[The Children Act 2004](#) (section 10 and section 14B)

[London Safeguarding Children Procedures and Practice Guidance, 7th Edition, 2022](#)

APPENDIX 2: LINKED POLICIES AND PROCEDURES

The following or similarly named policies and procedures are relevant to child protection and safeguarding.

Administration of medicines policy

Anti-bullying or peer on peer abuse policy

Attendance policy

Behaviour policy

Central record of recruitment and vetting checks

Children absent from education policy and procedures

Complaint's procedure statement

Data protection policy

Drug and alcohol education policy

Early Years Foundation Stage policy (including safeguarding and welfare)

Equalities information and objectives (public sector equality duty) statement

First Aid policy

Freedom of information policy

Health and Safety policy risk assessments

ICT acceptable use policy

Keeping records of child protection and welfare concerns protocols

Offsite activities and educational visits policy and risk assessments

Mobile phone usage policy

On-line safety policy

Personal, social and health education policy

Physical education and sports guidance

Positive handling and use of reasonable force policy

Premises inspection checklist

Prevention of radicalisation, extremism and terrorism

Pupil images safety

Recruitment and selection policy procedures

Register of pupils' attendance

Remote learning policy

Safer recruitment policy

Sex (and relationship education) policy

Sexual violence and sexual harassment policy

Special Educational Needs and disabilities policy

Spiritual, moral, social and cultural development policy

Staff code of conduct/behaviour policy – including acceptable use of technologies, staff/pupils' relationships and use of social media.

Staff discipline, conduct and grievance (procedures for addressing)

Statement of procedures for dealing with allegations of abuse against staff

Supporting pupils with medical conditions

Teachers' standards, Department for Education guidance available on GOV.UK website

Whistleblowing procedures

Work experience handbook

APPENDIX 3: RECORD OF CONCERN

Summary of Procedures for the DSL

Following a report from a member of staff, volunteer or visitor, the designated safeguarding lead will consider the level of need by applying the local thresholds for referral which Redbridge Safeguarding Children Partnership (RSCP) has agreed for use by all agencies and professionals who are worried or concerned about a child's safety or welfare.

Using the levels of need described in the [RSCP threshold document – Multi-Agency Safeguarding Thresholds: Are you worried about a child? \(2022\)](#), they will decide whether the child is in immediate danger or is at risk of harm, in which case a referral must be made, **immediately**, to children's social care and the police, not waiting until the end of the school day:

Redbridge CPAT (Child Protection and Assessment Team)

0208 708 3885

CPAT.referrals@redbridge.gov.uk.

Out of Hours Emergency Duty Team

020 8708 5897 Weekdays from 17:00 onwards, weekends and public holidays

making a clear statement of the known facts, any suspicions or allegations, whether or not there has been any contact with the child's family.

The designated safeguarding lead or deputy should confirm any referrals in writing via a multi-agency referral form (MARF). The child protection and assessment team will clarify with the police or children's social care whether the parents should be told about the referral and when and by whom.

[LBR Multi Agency Referral Form \(MARF\) Template](#)

If early help is appropriate the designated safeguarding lead should support the relevant member of staff in liaising with other agencies and setting up an inter-agency assessment. If early help, or other support is appropriate, the case will be kept under constant review and consideration given to a referral to children's social care if the child's situation does not appear to be improving.

APPENDIX 4: REDBRIDGE SCP MULTI-AGENCY THRESHOLD GUIDANCE

[RSCP Multi-agency threshold guidance](#)

[Neglect – Redbridge Safeguarding Children Partnership](#)

RESPONSIBILITIES: THE LOCAL AUTHORITY

Early Help

All staff should be prepared to identify children who may benefit from early help. Early help means providing support as soon as a problem emerges at any point in a child's life, from the foundation years through to the teenage years.

Any staff member who has a concern about a child's welfare should follow the school's referral processes. Staff should expect to support social workers and other agencies following any referral.

All staff should be aware of the local early help process and understand their role in it. Any child may benefit from early help, but all staff should be particularly alert to the potential need for early help for a child who:

- is disabled and has specific additional needs.
- has special educational needs (whether they have a statutory Education, Health and Care plan).
- is a young carer.
- is showing signs of being drawn in to anti-social or criminal behaviour, including gang involvement and association with organised crime groups.
- is frequently missing/goes missing from care or from home.
- is at risk of modern slavery, trafficking or exploitation.
- is at risk of being radicalised or exploited.
- is in a family circumstance presenting challenges for the child, such as substance abuse, adult mental health problems or domestic abuse.
- is misusing drugs or alcohol themselves.
- has returned home to their family from care.
- is a privately fostered child.

If early help is appropriate, the designated safeguarding lead (or deputy) will generally lead on liaising with other agencies and setting up inter-agency assessment as appropriate. Staff may be required to support other agencies and professionals in early help assessment, in some cases acting as the lead practitioner. Any such cases should be kept under constant review and consideration given to a referral to children's social care for assessment for statutory services, if the child's situation does not appear to be improving or is getting worse.

Children in Need

A child in need is defined under the Children Act 1989 as a child who is unlikely to achieve or maintain a reasonable level of health or development, or whose health and development is likely to be significantly or further impaired, without the provision of services; or a child disabled. Local authorities are required to provide services for children in need for the purposes of safeguarding and promoting their welfare. Children in need may be assessed under section 17 of the Children Act 1989.

Children Suffering or Likely to Suffer Significant Harm

Local authorities, with the help of other organisations as appropriate, have a duty to make enquiries under section 47 of the Children Act 1989 if they have reasonable cause to suspect that a child is suffering, or is likely to suffer, significant harm. Such enquiries enable them to decide whether they should take any action to safeguard and promote the child's welfare and must be initiated where there are concerns about maltreatment, including all forms of abuse and neglect, female genital mutilation or other so-called honour based violence, and extra-familial threats like radicalisation and sexual exploitation.

What Will LB Redbridge Social Care Do?

Within one working day of a referral being made, a local authority social worker should acknowledge receipt to the referrer and decide about the next steps and the type of response that is required.

This will include determining whether:

The child requires immediate protection and urgent action is required.

Whether the child is in need and should be assessed under section 17 of the Children Act 1989.

There is reasonable cause to suspect the child is suffering, or likely to suffer, significant harm, and whether enquiries must be made, and the child assessed under section 47 of the Children Act 1989.

Any services are required by the child and family and what type of services.

Further specialist assessments are required to help the local authority to decide what further action to take.

To see the child as soon as possible if the decision is taken that the referral requires further assessment.

The referrer should follow up if this information is not forthcoming.

If social workers decide to carry out a statutory assessment, staff should do everything they can to support that assessment (supported by the designated safeguarding lead or deputy as required).

If, after a referral, the child's situation does not appear to be improving, the referrer should consider following local escalation procedures to ensure their concerns have been addressed and, most importantly, that the child's situation improves.

APPENDIX 6: ALLEGATIONS OF ABUSE MADE AGAINST SATF (INCLUDING LOW-LEVEL CONCERNS)

Section 1: allegations that may meet the harms threshold.

This section applies to all cases in which it is alleged that a current member of staff, including a supply teacher, volunteer or contractor, has:

- o Behaved in a way that has harmed a child, or may have harmed a child, and/or
- o Possibly committed a criminal offence against or related to a child, and/or
- o Behaved towards a child or children in a way that indicates they may pose a risk of harm to children, and/or
- o Behaved or may have behaved in a way that indicates they may not be suitable to work with children – this includes behaviour taking place both inside and outside of school

If we're in any doubt as to whether a concern meets the harm threshold, we will consult our local authority designated officer (LADO).

We will deal with any allegation of abuse quickly, in a fair and consistent way that provides effective child protection while also supporting the individual who is the subject of the allegation.

A 'case manager' will lead any investigation. This will be the headteacher, or the chair of governors where the headteacher is the subject of the allegation. The case manager will be identified at the earliest opportunity.

Our procedures for dealing with allegations will be applied with common sense and judgement.

If we receive an allegation of an incident happening while an individual or organisation was using the school premises to run activities for children, we will follow our safeguarding policies and procedures and inform our LADO.

Suspension of the accused until the case is resolved.

Suspension of the accused will not be the default position and will only be considered in cases where there is reason to suspect that a child or other children is/are at risk of harm, or the case is so serious that there might be grounds for dismissal. In such cases, we will only suspend an individual if we have considered all other options available and there is no reasonable alternative.

Based on an assessment of risk, we will consider alternatives such as:

- Redeployment within the school so that the individual does not have direct contact with the child or children concerned.
- Providing an assistant to be present when the individual has contact with children.
- Redeploying the individual to alternative work in the school so that they do not have unsupervised access to children.
- Moving the child or children to classes where they will not come into contact with the individual, making it clear that this is not a punishment and parents/carers have been consulted.

If in doubt, the case manager will seek views from the school's personnel adviser and the designated officer at the local authority, as well as the police and children's social care where they have been involved.

Definitions for outcomes of allegation investigations

- **Substantiated:** there is sufficient evidence to prove the allegation
- **Malicious:** there is sufficient evidence to disprove the allegation and there has been a deliberate act to deceive, or to cause harm to the subject of the allegation
- **False:** there is sufficient evidence to disprove the allegation
- **Unsubstantiated:** there is insufficient evidence to either prove or disprove the allegation (this does not imply guilt or innocence)
- **Unfounded:** to reflect cases where there is no evidence or proper basis which supports the allegation being made

Procedure for dealing with allegations.

In the event of an allegation that meets the criteria above, the case manager will take the following steps:

- Conduct basic enquiries in line with local procedures to establish the facts to help determine whether there is any foundation to the allegation before carrying on with the steps below.
- Discuss the allegation with the designated officer at the local authority. This is to consider the nature, content and context of the allegation and agree a course of action, including whether

further enquiries are necessary to enable a decision on how to proceed, and whether it is necessary to involve the police and/or children's social care services. (The case manager may, on occasion, consider it necessary to involve the police *before* consulting the designated officer – for example, if the accused individual is deemed to be an immediate risk to children or there is evidence of a possible criminal offence. In such cases, the case manager will notify the designated officer as soon as practicably possible after contacting the police)

- Inform the accused individual of the concerns or allegations and likely course of action as soon as possible after speaking to the designated officer (and the police or children's social care services, where necessary). Where the police and/or children's social care services are involved, the case manager will only share such information with the individual as has been agreed with those agencies
- Where appropriate (in the circumstances described above), carefully consider whether suspension of the individual from contact with children at the school is justified or whether alternative arrangements such as those outlined above can be put in place. Advice will be sought from the designated officer, police and/or children's social care services, as appropriate
- Where the case manager is concerned about the welfare of other children in the community or the individual's family, they will discuss these concerns with the DSL and make a risk assessment of the situation. If necessary, the DSL may make a referral to children's social care
- **If immediate suspension is considered necessary**, agree and record the rationale for this with the designated officer. The record will include information about the alternatives to suspension that have been considered, and why they were rejected. Written confirmation of the suspension will be provided to the individual facing the allegation or concern within 1 working day, and the individual will be given a named contact at the school and their contact details
- **If it is decided that no further action is to be taken** in regard to the subject of the allegation or concern, record this decision and the justification for it and agree with the designated officer what information should be put in writing to the individual and by whom, as well as what action should follow both in respect of the individual and those who made the initial allegation
- **If it is decided that further action is needed**, take steps as agreed with the designated officer to initiate the appropriate action in school and/or liaise with the police and/or children's social care services as appropriate
- Provide effective support for the individual facing the allegation or concern, including appointing a named representative to keep them informed of the progress of the case and considering what other support is appropriate.
- Inform the parents or carers of the child/children involved about the allegation as soon as possible if they do not already know (following agreement with children's social care services and/or the police, if applicable). The case manager will also inform the parents or carers of the requirement to maintain confidentiality about any allegations made against teachers (where this applies) while investigations are ongoing. Any parent or carer who wishes to have the confidentiality restrictions removed in respect of a teacher will be advised to seek legal advice
- Keep the parents or carers of the child/children involved informed of the progress of the case (only in relation to their child – no information will be shared regarding the staff member)
- Make a referral to the DBS where it is thought that the individual facing the allegation or concern has engaged in conduct that harmed or is likely to harm a child, or if the individual otherwise poses a risk of harm to a child

If the school is made aware that the secretary of state has made an interim prohibition order in respect of an individual, we will immediately suspend that individual from teaching, pending the findings of the investigation by the Teaching Regulation Agency.

Where the police are involved, wherever possible the school will ask the police at the start of the investigation to obtain consent from the individuals involved to share their statements and evidence for use in the school's disciplinary process, should this be required at a later point.

Additional considerations for supply teachers and all contracted staff

If there are concerns or an allegation is made against someone not directly employed by the school, such as a supply teacher or contracted staff member provided by an agency, we will take the actions below in addition to our standard procedures.

- We will not decide to stop using an individual due to safeguarding concerns without finding out the facts and liaising with our LADO to determine a suitable outcome
- The governing board will discuss with the agency whether it is appropriate to suspend the individual, or redeploy them to another part of the school, while the school carries out the investigation
- We will involve the agency fully, but the school will take the lead in collecting the necessary information and providing it to the LADO as required
- We will address issues such as information sharing, to ensure any previous concerns or allegations known to the agency are taken into account (we will do this, for example, as part of the allegations management meeting or by liaising directly with the agency where necessary)

When using an agency, we will inform them of our process for managing allegations, and keep them updated about our policies as necessary, and will invite the agency's HR manager or equivalent to meetings as appropriate.

Timescales

We will deal with all allegations as quickly and effectively as possible and will endeavour to comply with the following timescales, where reasonably practicable:

- Any cases where it is clear immediately that the allegation is unsubstantiated or malicious should be resolved within 1 week
- If the nature of an allegation does not require formal disciplinary action, appropriate action should be taken within 3 working days
- If a disciplinary hearing is required and can be held without further investigation, this should be held within 15 working days

However, these are objectives only and where they are not met, we will endeavour to take the required action as soon as possible thereafter.

Specific actions

Action following a criminal investigation or prosecution

The case manager will discuss with the local authority's designated officer whether any further action, including disciplinary action, is appropriate and, if so, how to proceed, taking into account information provided by the police and/or children's social care services.

Conclusion of a case where the allegation is substantiated

If the allegation is substantiated and the individual is dismissed or the school ceases to use their services, or the individual resigns or otherwise ceases to provide their services, the school will make a referral to the DBS for consideration of whether inclusion on the barred lists is required.

If the individual concerned is a member of teaching staff, the school will consider whether to refer the matter to the Teaching Regulation Agency to consider prohibiting the individual from teaching.

Individuals returning to work after suspension

If it is decided on the conclusion of a case that an individual who has been suspended can return to work, the case manager will consider how best to facilitate this.

The case manager will also consider how best to manage the individual's contact with the child or children who made the allegation, if they are still attending the school.

Unsubstantiated, unfounded, false or malicious reports

If a report is:

- Determined to be unsubstantiated, unfounded, false or malicious, the DSL will consider the appropriate next steps. If they consider that the child and/or person who made the allegation is in need of help, or the allegation may have been a cry for help, a referral to children's social care may be appropriate
- Shown to be deliberately invented, or malicious, the school will consider whether any disciplinary action is appropriate against the individual(s) who made it

Unsubstantiated, unfounded, false or malicious allegations

If an allegation is:

- Determined to be unsubstantiated, unfounded, false or malicious, the LADO and case manager will consider the appropriate next steps. If they consider that the child and/or person who made the allegation is in need of help, or the allegation may have been a cry for help, a referral to children's social care may be appropriate
- Shown to be deliberately invented, or malicious, the school will consider whether any disciplinary action is appropriate against the individual(s) who made it

Confidentiality and information sharing

The school will make every effort to maintain confidentiality and guard against unwanted publicity while an allegation is being investigated or considered.

The case manager will take advice from the LADO, police and children's social care services, as appropriate, to agree:

- Who needs to know about the allegation and what information can be shared
- How to manage speculation, leaks and gossip, including how to make parents or carers of a child/children involved aware of their obligations with respect to confidentiality
- What, if any, information can be reasonably given to the wider community to reduce speculation
- How to manage press interest if, and when, it arises

Record-keeping

The case manager will maintain clear records about any case where the allegation or concern meets the criteria above and store them on the individual's confidential personnel file for the duration of the case.

The records of any allegation that, following an investigation, is found to be malicious or false will be

deleted from the individual's personnel file (unless the individual consents for the records to be retained on the file).

For all other allegations (which are not found to be malicious or false), the following information will be kept on the file of the individual concerned:

- A clear and comprehensive summary of the allegation
- Details of how the allegation was followed up and resolved
- Notes of any action taken, decisions reached and the outcome
- A declaration on whether the information will be referred to in any future reference

In these cases, the school will provide a copy to the individual, in agreement with children's social care or the police as appropriate.

We will retain all records at least until the accused individual has reached normal pension age, or for 10 years from the date of the allegation if that is longer.

References

When providing employer references, we will:

- Not refer to any allegation that has been found to be false, unfounded, unsubstantiated or malicious, or any repeated allegations which have all been found to be false, unfounded, unsubstantiated or malicious
- Include substantiated allegations, provided that the information is factual and does not include opinions

Learning lessons

After any cases where the allegations are *substantiated*, the case manager will review the circumstances of the case with the local authority's designated officer to determine whether there are any improvements that we can make to the school's procedures or practice to help prevent similar events in the future.

This will include consideration of (as applicable):

- Issues arising from the decision to suspend the member of staff
- The duration of the suspension
- Whether or not the suspension was justified
- The use of suspension when the individual is subsequently reinstated. We will consider how future investigations of a similar nature could be carried out without suspending the individual

For all other cases, the case manager will consider the facts and determine whether any improvements can be made.

Non-recent allegations

Abuse can be reported, no matter how long ago it happened.

We will report any non-recent allegations made by a child to the LADO in line with our local authority's procedures for dealing with non-recent allegations.

Where an adult makes an allegation to the school that they were abused as a child, we will advise the individual to report the allegation to the police.

Section 2: concerns that do not meet the harm threshold

This section applies to all concerns (including allegations) about members of staff, including supply teachers, volunteers and contractors, which do not meet the harm threshold set out in section 1 above.

Concerns may arise through, for example:

- Suspicion
- Complaint
- Safeguarding concern or allegation from another member of staff
- Disclosure made by a child, parent or other adult within or outside the school
- Pre-employment vetting checks

We recognise the importance of responding to and dealing with any concerns in a timely manner to safeguard the welfare of children.

Definition of low-level concerns

The term 'low-level' concern is any concern – no matter how small – that an adult working in or on behalf of the school may have acted in a way that:

- Is inconsistent with the staff code of conduct, including inappropriate conduct outside of work, **and**
- Does not meet the allegations threshold or is otherwise not considered serious enough to consider a referral to the designated officer at the local authority

Examples of such behaviour could include, but are not limited to:

- Being overly friendly with children
- Having favourites
- Taking photographs of children on their mobile phone
- Engaging with a child on a one-to-one basis in a secluded area or behind a closed door
- Humiliating pupils

Sharing low-level concerns

We recognise the importance of creating a culture of openness, trust and transparency to encourage all staff to confidentially share low-level concerns so that they can be addressed appropriately.

We will create this culture by:

- Ensuring staff are clear about what appropriate behaviour is, and are confident in distinguishing expected and appropriate behaviour from concerning, problematic or inappropriate behaviour, in themselves and others
- Empowering staff to share any low-level concerns as per section 7.7 of this policy
- Empowering staff to self-refer
- Addressing unprofessional behaviour and supporting the individual to correct it at an early stage
- Providing a responsive, sensitive and proportionate handling of such concerns when they are raised
- Helping to identify any weakness in the school's safeguarding system

Responding to low-level concerns

If the concern is raised via a third party, the headteacher will collect evidence where necessary by speaking:

- Directly to the person who raised the concern, unless it has been raised anonymously
- To the individual involved and any witnesses

The headteacher will use the information collected to categorise the type of behaviour and determine any further action, in line with the school's Staff Code of Conduct. The headteacher will be the ultimate decision-maker in respect of all low-level concerns, though they may wish to collaborate with the DSL.

Record keeping

All low-level concerns will be recorded electronically on a secure management system. In addition to details of the concern raised, records will include the context in which the concern arose, any action taken and the rationale for decisions and action taken.

Records will be:

- Kept confidential, held securely and comply with the DPA 2018 and UK GDPR
- Reviewed so that potential patterns of concerning, problematic or inappropriate behaviour can be identified. Where a pattern of such behaviour is identified, we will decide on a course of action, either through our disciplinary procedures or, where a pattern of behaviour moves from a concern to meeting the harms threshold as described in section 1 of this appendix, we will refer it to the designated officer at the local authority
- Retained at least until the individual leaves employment at the school

Where a low-level concern relates to a supply teacher or contractor, we will notify the individual's employer, so any potential patterns of inappropriate behaviour can be identified.

References

We will not include low-level concerns in references unless:

- The concern (or group of concerns) has met the threshold for referral to the designated officer at the local authority and is found to be substantiated; and/or
- The concern (or group of concerns) relates to issues which would ordinarily be included in a reference, such as misconduct or poor performance
